4x8 Home Depot Fiberglass Laminate FRP Somposites Wall Board Suppliers

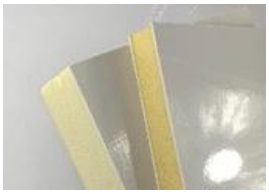
A. FRP Wall Board

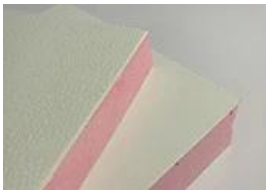
Also known as GRP / FRP composite panel, which structure is FRP skin + core material + FRP skin.
FRP composite panel is a high-quality, new high-quality sheet, does not occur in the ultra-low temperature of 40 degrees crack brittle, high temperature below 100 degrees will not be deformed, and can prevent heat transfer.
FRP composite panels can replace color steel plate, aluminum, etc., and to overcome the traditional products rust, corrosion, easy deformation depression, can not adapt to harsh environments and other deficiencies.
FRP composite plate with coated gel, can be self-cleaning, anti-UV, anti-static, etc., is the most popular international truch body and van panel.

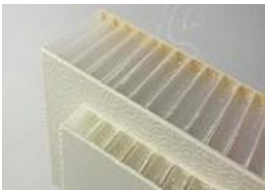
B. Features of the FRP Wall Board

1. High mechanical strength and good impact resistance;
2. Surface roughness and easy to clean;
3. Corrosion resistance, wear resistance, yellowing resistance, anti-aging;
4. Resistance to high temperatures;
5. No deformation, low thermal conductivity, excellent insulation properties;

C. FRP wall board core type

FRP Sandwich Panel Core Type				
FRP PU Foam Panel	FRP XPS Panel	FRP PP Honeycomb panel	FRP Plywood Panel	Two or more main types
				






Price: □□ Insulation: □□□□ Strength: □ □	Price: □ Insulation: □□□ Strength: □□	Price: □□ Insulation: □□ Strength: □□□	Price: □□□ Insulation: □□ Strength: □□□□	Price: □□□□□ Insulation: □□□□ Strength: □□□□

D.Package & Delivery

Package	Delivery
1.Packed on plywood palet	1. Samples: 2-3 dyas
2.Packed in case of plywood	2. Mass production: 7-15 business days after receiving payment
3.Load in container directly	3. Terms of delivery: EXW, FOB. CIF, DDP all can be accepted

E. Applications of the FRP Wall Board

F. Factory Profiles

Foreth Industrial Co., Ltd is a fast developing company which is mainly specialized in plastic coated fiber (FRP) products and operates in a global market. Foreth's team provides customers with FRP sheets, FRP sandwich FRF grids, composite roofing, FRP profiles, FRP roof sheets, etc., with a wide range of applications throughout the construction, marine, off road, rail, water treatment and engineering.

Moreover, we have extensive experience in exporting and supplying high quality products and excellent service.
Please feel free to contact us if any inquiry you may have and we will be happy to assist you. We hope to be your reliable supplier & stable partner setting up a lot of time as well as a joyful business relationship

with your esteemed company!
