

Translucent Clear Flat and Corrugated Fiberglass Reinforced Plastic GRP FRP Roof Panels Manufacturer

A. Fiberglass Reinforced Plastic GRP FRP Roof Panels Description

FRP Roofing Sheet are widely used in the field of industrial plants, warehouses, greenhouses, stations, docks, airports, sports buildings, commercial buildings, steel structures and other lighting areas. FRP is glass fiber and one or several thermosetting or thermoplastic resin composite material, such as phenolic resin, epoxy resin, polyester resin, polyimide resin. Glass fiber reinforced glass fiber that is the early 20th century, the development of a new composite material, it has a light weight, high strength, corrosion, insulation, noise and many other advantages.

B. Fiberglass Reinforced Plastic GRP FRP Roof Panels Features

1. Weatherability: In the temperature range of -40 °C - 120 °C to maintain stable performance;
2. Low thermal conductivity & good insulation performance;
3. Non-toxic, non-asbestos, etc., in line with world health standards;
4. No moss & prevent microbial growth;
5. High impact and resistant to strong wind;
6. Safe and reliable, Not combustion-supporting in open fire;
7. Corrosion resistance, suitable for chemical workshop roof, such as fertilizer plants, electroplating factory

C. Fiberglass Reinforced Plastic GRP FRP Roof Panels Types

Fiberglass Reinforced Plastic GRP FRP Roof Panels Type			
Transparent Flat Sheet	Transparent Pebbled Sheet	Transparent Corrugated Sheet	Opaque Corrugated Sheet
			

Fiberglass Reinforced Plastic GRP FRP Roof Panels Shape: (can be customized, just show part of the shapes we produced)

D. Package & Delivery

Package

1. Packed on plywood pallet
2. Packed in plywood case
3. Load in container directly

Delivery

1. Samples: 2-3 days
2. Mass production: 7-15 working days after receive payment
3. Delivery terms: EXW, FOB, CIF, DDP all can be accepted

E. Fiberglass Reinforced Plastic GRP FRP Roof Panels Applications

1. Industrial plants, warehouses,

2. Stations, docks, airports, car parks
3. Greenhouse, aquaculture
4. Sports venues, courtyard lighting

F. Factory Profiles

Foreth Industrial Co., Ltd is a fast-developing enterprise which is mainly specialized in FRP(fiber reinforced plastic) products, and operates in a global marketplace. Foreth team supply clients with FRP sheets, FRP sandwich panels FRP gratings, composite manhole covers,FRP profiles, FRP roofing sheets etc,with a wide range of applications across the construction,marine,off highway,rail,water treatment and engineering industries.

Additionally, we have rich experience in exporting and supplying high quality products and excellent service.

Feel free to contact us if any query you may have and we will be happy to assist you.We hope to be your reliable supplier & stable partner by establishing long time as well as joyful business relationship with your esteemed company!

WHY CHOOSE US

Foreth Industrial Co., Ltd. is a rapid development of enterprises, mainly Specializing in glass fiber reinforced plastic (fiber reinforced plastic) products and in global market. We have been in the glass fiber reinforced plastic industry for 15 years.
