

Thin High Glossy Colored Polystyrene Plastic PS Plate for Printing

A. Polystyrene Plastic PS Plate Description

Polystyrene Sheet (PS Plate) is made by extrusion, main raw material is polystyrene granule. Mainly used for packaging, container equipment, General electrical and construction and other industries.

High Impact Polystyrene (HIPS) is the modified polystyrene sheet, impact strength and toughness has been greatly improved. Has partially replaced the expensive ABS material right now.

B. Polystyrene Plastic PS Plate Features

1. High impact strength
2. Good Shading performance.
3. Excellent forming and machining performance.
4. Low water absorption and good corrosion resistance.
5. Non-toxic and tasteless.

C. Polystyrene Plastic PS Plate Types

Polystyrene Plastic PS Plate Type				
Surface Type	FORE01	FORE02	FORE03	FORE04
				
	FORE05	FORE06	FORE07-01	FORE07-02
				

Color Type	<div data-bbox="387 591 1254 784"> <div> <p>Select Your Color</p>  </div> <div> <p>Enter a Pantone Color Name or Number</p> <p><small>Minimum of 3 characters: letters, numbers, spaces, or hyphens only. Examples: 17-0145 TPG, 123 C, P 112-4 U, PG-2113C, gray, blue, etc.</small></p> <input data-bbox="767 696 1177 719" type="text"/> <p>SUBMIT</p> </div> </div>	Fire-retardant, Food Grade, Anti-static, UV protection Special Requirements
------------	---	--

D. Package & Delivery

Package	Delivery
1.Packed on plywood pallet	1. Samples: 2-3 dyas
2.Packed in plywood case	2. Mass production: 7-15 working days after receive payment
3.Load in container directly	3. Delivery terms: EXW, FOB, CIF, DDP all can be accepted

E. Polystyrene Plastic PS Plate Applications

1. Display trays
2. Storage cases
3. Display bases
4. Product holders
5. Point-of-purchase displays
6. Thermoformed displays
7. Display components
8. Models and prototypes
9. Machine housings, guards, and covers
10. Instrument panels
11. Thermoformed trays and tote bins

F. Factory Profiles

We are the largest-scaled and best-equipped manufacturer in the field of [plastic sheet](#) and thick gauge [vacuum forming](#) in china. We also own a well-experienced team--more than 15 years experience--of desingers and technicians, which enable us to supply you the most ideal products.

We integrate product design, prototype, tooling , vacuum forming, CNC trimming,silk-screen printing, spray painting,packaging in one company. In addition, we own our skilled acrylic displays craftsmen.All these help us to provide you with one-stop service from your designs/samples and even ideas to final products.

1. Plastic sheet extrusion include: [ABS Sheet](#), [HIPS Sheet](#), [HDPE Sheet](#), [PP Sheet](#), ABS/PC, ABS/PMMA Sheet etc.
2. Plastic sheets max width can be 2000mm.
3. The Max forming products size can be 4000*2000*800mm.
4. The material thickness can reach 12mm.
5. we are able to do silkscreen, spray painting and prototype etc.
6. Products are widely applied in toy, catering, auto, mechanism, household appliance, tourism, printing, medical equipment, architecture, touring, advertising, furniture etc.
7. Lower tooling costs.
8. Extremely adaptive to customer design needs

ABOUT US

Professional manufacturer of ABS sheets, HIPS sheets, PE sheets, HDPE sheets, LDPE sheets, plastic vacuum forming etc.

COMPANY PROFILE

Foreth Industrial Co., Limited is a manufacturer of ABS sheets, HIPS sheets, PE sheets, HDPE sheets, LDPE sheets, plastic vacuum forming with well-equipped testing facilities and strong technical.

With a wide range, good quality, reasonable prices and stylish designs, our products are extensively used in plastic products and other industries.

Our products are widely recognized and trusted by users and can meet continuously changing economic and social needs.

We welcome new and old customers from all over the world to contact us for future business relationships and mutual success!
