## Leg Options

1

Adjustable beam leg

2

Double beam leg

3

Adjustable beam leg  
(with white coated)

1

### Good-quality ABS material

The tray is made of ABS material, that can withstand various unexpected impacts, enhancing the reliability and service life of the equipment.

2

### Hot-Dip Galvanizing material

The base, roller tuber etc, are made of hot-dip galvanized, that can make it have excellent corrosion resistance performance and enjoy a service life of up to 20 years.

3

### Aluminium alloy Material

The farm, farm connectors, etc, are made of aluminium alloy, that can maintain stable performance in harsh environments such as dampness and salinity, reducing the maintenance costs of agricultural equipment.
